No Cause Has Yet Been Assigned for the Rush Act -A Pathetic Story.

(Special to the "News.") Richfield, Utah, Oct. 24.-Word has reached here that Audrey Keeler Snowden, of this place, killed her baby last evening with a gun and then blew her own brains out at Mt. Pleasant. river, to California, in the days that The unfortunate young lady was born and raised in Richfield of goodly par- its founders, has passed into the great ents, but fell astray some three years ago as the public is well aware, through the facts developed at the famous

Salt Lake City. At the time of the tragedy Dr. Snowden was in Moroni and on hearing the awful news hastened to Mt. Pleasant. He seemed to be mystified as to the motive his wife had in doing such a rash deed and said he could assign no reason for it whatever. A jury was summoned and after making an examnation of the bodies and surrounding onditions adjourned until 10 o'clock tomorrow morning, at which time the in-quest will be held.

The weapon used by Mrs. Snowden was a 41-caliber Colt's revolver. After sending a bullet through the head of her baby girl, who was but 22 months old, she thrust the instrument to her own right temple and fired. She was killed outright, but the baby lived for one hour. A strange feature of the tragic episode is that the hapless woman made no secret of her intentions to take her own life, often expressing such to her mother-in-law, who was living with the Snowdens. She seemed to brood over the matter, and yesterlay she went to her mother-in-law and asked if it would be much of a disgrace on a child if its mother committed suicide. What was said to her or what efforts were made to dissuade her from her mad purpose are not reported. Dr. Snowden says that when he left home yesterday morning his wife ex-hibited none of the morbid thoughts that must have been on her mind. He kissed her goodbye and said if he couldn't get back that night he would

telephone and let her know. The parents and relatives of Mrs Snowden in this place, have gone to Mt. Pleasant and will attend the inquest tomorrow morning. The county attorney and the sheriff also will be in attendance at the examination.

She herself was a great favorite with both the boys and girls, pretty, intelligent and good natured, her society was always sought after. But when the blight came upon her, and her name was as clated in crime with that Snowden her friends forsook her and what her life has been since can be fairly inferred from the deep pathos of its ending. Dr. Snowden though a married man at the time, ingratiated himself into the affections of Miss Keeler and induced her to come to Salt Lake with him. all in his power towards the upbuilding of Utah, E. H. Harriman will perform the same office for the development of the state of Idaho, with the object in view of opening up the big undeveloped brought Utah under the civilization of tract of country embraced by Boise, Custer and Idaho counties. That these districts will eventually hear the whistle of the locomotive is only a matter of time and when that comes the Oregon Short Line will be on hand to haul the ore shipments.

ORE SHIPMENTS.

The transportation of ore from Idaho to the smelters has been steadily increasing year by year until it bids to be a factor in the earnings of the railroad. Idaho county, according to Charles Crane, who recently returned from an extended trip through that country, is one of the richest mining districts in America today. It is but sparsely set tled and practically terra incognita, having never been surveyed by the gov ernment. Within its limits are situated the famous Buffalo Hump, Yellow Jacket and the Thunder Mountain mining districts that have not as yet been hardly scratched over. New prospects which pan out remarkable showings are eing daily discovered and it is predict ed that a big boom will hit that section of Idaho one fine morning which will cause the railroad systems that traverse Idaho and Montana to get into the country as fast as the construction

gangs can make headway.

INVESTIGATING COUNTRY. In the face of this contingency General Manager Bancroft of the Short Line has been quietly making investigations and has had several interviews with W. H. Dewey, president of the Boise, Nampa & Owyhee, who also had had his eye upon the Thunder Mountain district with the object in view of buildng into that section from either Nampa or Boise to connect with the Oregon

As set forth in the "News" yast night, Messrs. Bancroft and Calvin, during the past few days, have been investifgating the country and big timber region in Bolse basin with the object in view of building a branch up to Idaho City for the purpose of getting out ties. It was the original intention of the party to proceed by wagon from Idaho City grough to the Salmon river and work their way east to Houston and down to Blackfoot, but owing to the fact that pressing business requires ce in Salt Lake at the of this week they will return to this

ated about 200 miles from Thunder STAGE LINE COMPANY.

On the evening of the arrival of the Oregon Short Line officials at Beise a meeting of prominent citizens was held at the city hall, with Judge Olden in the chair. The sense of the meeting was condensed into a resolution which aroused enthusiasm and was passed without a dissenting vote, to the effect the laws of Idaho in the sum of \$50,00 for the purpose of building a wagon road and installing a stage and freight line from Boise to Thunder Mountain

This step is the forerunner of the opening up of that section of Idaho. It is said that the prospect holes are developing ore that shows that even with the long haul to the railroad that there is money in mining. Just as soon as it has been demonstrated that these fine prospects will not pinch out, but on the other hand are fine paying prop-ositions, just so soon will the iron horse invade that section, and if present indications hold good the first in the field will be the Oregon Short Line.

Cheap Jewelry Man Arrested-Had Her Face Slapped and Wants Satisfaction-Corinne Burglary.

(Special to the "News.") Ogden, Utah, Oct. 24 .- An exciting incident happened here last evening when Special Officer Brown arrested William Barrett on the charge of having sold cheap jewelry without a license. The officer found Barrett on Twenty-fifth street, and proceeded to escort him to the city jail. Within a half block or so from the station Barrett broke away from Officer Brown and attempted to escape by running. The officer promptly took out a revolver and fired four shots at the man. None of them took effect, however, and the officer immediately started in pursuit. Barrett was again captured on the corner of Twenty-sixth street and was then taken to the station without further trouble.

COLORED AFFAIR. At the instigation of a colored woman, one Susan Doe, a warant was issued last evening for the arrest of Arthur McClellan, also colored, on the charge of having disturbed the peace and quiet of the city. The camplainant alleges that she was at her house last evening when the said McClellan appeared on the scene and spoke not only harshly to her, but in a highly improp er and vulgar manner, after which he slapped her face severely, and then drew a knife with which, the complaint states, the said McClelian would have struck her had she remained-but she didn't-she ran away and thus escaped
